

## **Mortgage Analyst**

Founded in 1969, Countrywide Financial Corporation is a member of the S&P 500, Forbes 2000, and Fortune 500. Through its family of companies, Countrywide provides mortgage banking and diversified financial services. This firm seeks a mortgage analyst to work in Product Management area of its Enterprise Risk Management group located in its headquarters in Calabasas, CA. This department offers excellent stability, team oriented environment, great benefits and opportunity for growth.

As a mortgage analyst, you will help analyze the collateral mix, credit risk, profitability and performance of Countrywide's mortgage products. Your analysis will support mortgage product managers and senior management in making credit and pricing decisions. We are looking for someone who is goal oriented, logical thinker and a team player. Mortgage banking or secondary marketing experience is a plus.

### **Responsibilities:**

- Analyze mortgage originations and performance trends.
- Complete various ad-hoc analyses by utilizing SQL/Excel.
- Assist in statistical analysis relating characteristics of the collateral to delinquency and prepayments.
- Contribute to management presentations.

### **Requirements:**

- B.S. in economics, mathematics, statistics or other related field is required. Masters degree and/or work experience is a plus.
- Knowledge of Excel pivot tables or OLAP cubes.
- Solid understanding of basic statistics.
- Familiarity with logistic regression or survival models.
- Excellent multi-tasking abilities and communication skills.
- SQL and/or SAS knowledge is highly desired.
