Positions in Quantitative Finance

Millennium Partners

411 W. Putnam Ave.

Greenwich, CT

Email Submissions: iteamjobs@mlp.com

Attention: Careers Office

Millennium Partners, a quantitatively-based financial management firm, has openings for research positions in its Greenwich, CT research center. You will be joining a top stat-arb group. Most of whom have PhDs in a variety of scientific disciplines. We are looking for highly trained professionals who are interested in applying advanced methods to the modeling of world financial markets. We have a spectrum of opportunities for individuals who have the right quantitative and computing skills. Experience in finance not required. The ideal candidate will have an advanced degree in Astronomy, Physics, Mathematics, Computer Science, or an allied discipline; a broad background applying quantitative analysis to difficult problems; strong analytical and programming skills; experience designing and developing high-performance, real-time mission-critical systems; and experience with large databases.

Compensation is comprised of base salary and a bonus tied to performance, and will be at least \$100,000 or more, depending on background and experience. Applicants should send a resume to the above address.
